

Our Vision:

Our mission is to *"build a caring and trusting relationship"* with your employees, while creating the confidential environment they seek, which enables them the ability to discuss their life issues with nonjudgmental understanding comfort and support. This eliminates any guilt, shame and fear that would continue to suppress their ability to be a more valuable and productive employee in the workplace.

The Corporate Spiritual Care Program™

*"Creating a More Valuable and
Productive Employee"*

The Need of Our Service

People spend more hours at work than any other place in their lifetime. But just because they go to work doesn't mean they've left their worries at home. Their fears, concerns, depression and other anxieties crowd out focused work time. Hospital and doctor visits create mounting unpaid days off. Illness, trauma and death devastate families and burden employees with skyrocketing health care costs. However, employees aren't the only ones who suffer during crisis. Time after time, employers report stories of inadequate workplace support programs and feelings of helplessness. Every year conflict in the workplace cost employers \$1 Billion in losses.

"Building a caring and trusting relationship with your employees to become more valuable and productive"

Meaningful Hope

The Corporate Spiritual Care Program (**CSCP**) provides understanding and compassion at the workplace, where it is needed most, and where it can make a meaningful difference. Because of our "boots-on-the-ground" approach to interfaith ministry, we can provide care for those who need a trusted objective friend and confidant. And further assist those who can't bear their burdens alone anymore.

Our program is operated by a professional, certified and fully capable team who combine workplace experience with professional chaplaincy training. We incorporate management principles that provide employee support with the greatest convenience to the CEO/business owner and other related departments with the maximum impact for the employee.

Benefits of A Spiritual Care Program:

- Improve Attitudes, Teamwork, Morale
- Enhances Well-Being of Employees
- Increases Loyalty; People feel "Valued"
- Increases Commitment to Goals and Objectives
- Reduces Employee Conflicts
- Reduces Stress
- Improves Workplace Safety
- Undergirds Corporate Culture
- Decreases Absenteeism
